

B.Ankha

2X AWARD-WINNING BRONX R&B SINGER & SONGWRITER

Bianca Hassell, known professionally as B.Ankha, is a 2x award-winning Bronx R&B singer and songwriter. Her honors include the 2025 Come Up Awards Best Female R&B Artist of the Year and the 2021 All Star Music Awards Best Female R&B/Pop Artist of the Year.

She knew music was her calling from the moment she wrote her first song, "My Music," at just 13 years old. The experience felt natural, almost destined, and ever since, she has dedicated herself to the craft.

Over the past decade, B.Ankha has evolved into a commanding presence in New York's independent R&B scene, building a catalog rooted in vulnerability, empowerment, and real-life experiences.

"My main influence, honestly, is life. Every obstacle, every accomplishment, it all finds its way into the music."

When it comes to personal icons, she points to Teyana Taylor, a multi-talented boss whose resilience and range inspire B.Ankha's own path.

Driven by the desire to connect on a global scale, her primary goal is to tour internationally, performing in front of crowds who know every word and feel every emotion.

"That energy, that connection, I want to give people an experience they never forget."

Built to be felt.

B.Ankha's growing momentum speaks for itself. In the past year alone, she opened for Fergie Baby at the Fergie Baby & Friends show at SOB's and returned to headline SOB's with Major Stage. She also took the stage for SPILL IT ENT's Back to the Block Pt. 2, and has performed at respected venues like Taj NYC, The Daze Summit, and Absolutto Bar in the Bronx.

Her Bmix of "Worth It" by Offset featuring Don Toliver gained traction after catching the attention of HOT 97's DJ Spazo, who has since championed her work on-air and is currently collaborating with her on a new release.

She made an impactful debut on the major platform On The Radar, performing her latest single, "Shift," produced by G Tuck. The performance has already amassed more than 50,000 views and counting. Her previous release, "Mind Games," continues to build traction online and through curated content, helping her solidify a strong visual presence across platforms.
